DINING POD

# Monetise areas which are costing money and opportunities, currently contributing nothing

## 01

Our unique Dining Pods are a multi-purpose portable dome shaped structure that can transform your outside area and can be used as a stylish space.

## 02

The pods are not only a fabulous addition to private gardens but are also used by pubs, hotels, restaurants and other commercial ventures to monetise outdoor areas.

## 03

Perfect as an outside entertainment area, these dinning pods are a quirky alternative to a costly structure.

Perfect for:

- Restaurants
- Hotels
- Pubs

# Enjoy The Outdoors All Year

With the amazing polycarbonate Garden Pod! This unique frameless dome shaped structure is sure to transform your garden or outdoor area.

Made from over 100 hexagonal glass-like panels, this pod really does blur the lines between the indoors and outdoors.

# Noise-cancelling Acoustic Properties

The polycarbonate Garden Pod has a unique stylish design that uses noise cancelling technology to create a peaceful atmosphere inside and out.

# Soical Distance Seats up to 8 People

Make the most of your outdoor space. This pod is an extra spacious 3.6 - meter diameter and sits 6-8 people and has a convenient build in sliding door. Perfect for safe social distancing.

DINING POD

## Built to Last

Resistant to rain and violent winds, 200 x stronger than glass (virtually unbreakable!). Overlapping hexagonal panels allows water to drip all the way to the ground meaning no leaks! Come with a 2 year manufacturers warranty covers manufacturing faults / defects only, not misuse or damages arising from adverse weather conditions.

DINING POD

## No Ongoing Maintenance

Just check the bolts and anchors occasionally plus a good clean every now and then!

polycarbonate requires minimum maintenance. To keep it in a good shape clean it regularly with a lukewarm water and cleaning kit provided. We advise to remove larger dirt such as leaves, mud, bird droppings, etc. as quickly as possible.

DINING POD

## No Foundation Necessary

Simply anchor it with the anchoring system provided. Alternatively we can build you a bespoke outdoor area to seat you dining pods. A sandbag system is included as an alternative method of anchoring.

DINING POD

## Ventilation Windows

Add openable window panels for extra ventilation and to keep cool. Helping prevent condensation from forming on the inside of your dome. You can install up to 3 vents per dome. Each vent must be positioned above the pentagonal sections.

Ventilation Window +£95.00+VAT

DINING POD

## Easy to Dismantle and Store

The Polycarbonate Dining Pod weighs 100kgs and is rigid enough to be moved when fully built with 4 – 5 people. You can lift it over furniture if you decide you want to move it to a sunny or shady spot.

DINING POD

## 100% Recyclable

Made from 100% recyclable polycarbonate panels connected together using stainless steel screws.

## Give Your Customers a Special Experience

---

When assembled the dining pod offers a 360° window on the world. Aside from looking great and providing an amazing view from within, the dome gently retains heat on cool summer evenings making it a perfect retreat.

DINING POD

## Increase Dining Space for Safe Social Distancing

---

Make the most of your outdoor space. This pod is an extra spacious 4-meter diameter and sits 6-8 people and has a convenient build-in sliding door. Perfect for safe social distancing.

## PR and Marketing Opportunities

---

Dining pods are a great way to market your business, giving you a unique selling point that sets you apart from the competition. Many customers will want to book the pod space well in advance but will then be happy to book a table if they are full.

Unsurprisingly many of our clients have been able to get great PR and positive reviews from the dining pods as it adds a new aspect to the dining experience.

## Easy to Keep Clean

---

The outer shell is made with self-cleaning polycarbonate sheet which has a unique hydrophobic coating, it reduces the outside surface tension, causing larger water droplets to form and wash away most of the dirt.
